Deep Learning Test

Puntos totales **48/50**

✓ What is the primary goal of Deep Learning?

1/1

- ☐ To create simple algorithms
- ☐ To enhance digital presence
- ☒ To process data and make decisions using neural networks ✓
- ☐ To manage customer interactions

✓ Which of the following is a characteristic of Big Data platforms?

1/1

- ☒ Scalability ✓
- ☐ Limited data types
- ☐ Slow data processing
- ☐ Inconsistent data availability
